# We're Tomasso

---

For the last 20 years we dedicated to the production and commercialization of pizzas and empanadas.

Under our collaborative franchising system that it's already working in the major cities of Argentina and some countries of south America.

Our production plants and the logistic hub are located in Buenos Aires city, where we produce 2 million empanadas and 300 thousand Pizzas every month.

We developed different commercials channels; our Tomasso shops, public and private institutions and international customers.

We aim to deliver products with the best quality at a very competitive price. And to ship our products to all continents. That's our passion.

We are proud to have the BRC FOOD certification to assure our clients quality, food safety and transparent manufacturing. Also, we have our plant certified with the Argentinian Organic seal, ensuring our capacity to produce and deliver organic products all over the world.
